Are you interested in supporting people to improve their career journeys through learning, skills, reskilling and upskilling, work and transitions?

Career guidance describes the services which help people of any age to manage their careers and to make the educational, training and occupational choices that are right for them.

It helps people to reflect on their ambitions, interests, qualifications, skills and talents - and to relate this knowledge about who they are to who they might become within the labour market.

OBJECTIVES

We are six partner organizations from all over Europe – **Italy, Finland, Spain, France, Belgium and Ireland.**

We collaborate with many stakeholders, which lets us reach very large and diverse audiences.

The project's results will be released as digital Open Educational Resources because we care about accessibility and sustainability.

Our goal is to innovate career guidance.

The project would like to build up a new generation of professional European Career Guides able to support people to improve their career journey through learning, skills, reskilling and upskilling, work and transitions - a need more and more important especially in difficult and evolving times.
